a) Philosophy of Creation?...

As per current existing theory “**creation**” being one of the hypothesis of “**Human Origin**”. But current theory do not have any focus about Asset sources, Technological requirement for initial creation of all matters including planetary system. This research hypothesize that creator (GOD) shall be considered as the “**Super Scientist**” and **Micro Economist**” for designing the initial “**strategy**” for systematic array of available **Dark matter**, **Dark energy** called as dark Assets to transform as created **matters**.

**(WHITE FLAME)**

The creative force **J-Radiation** shall be considered as containing billions of rays representing **genetic code** of each created matter. Each ray shall be considered composed of fundamental "**AKKI-E**" particles **Photon, Electron, Proton** co-exist always and can not be subdivided and symmetrically placed. AKKI-E particles shall be considered derived from dark assets.

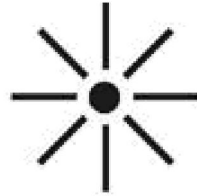

The philosophy of Initial creation shall be considered as based on **AKKI-E** principles under **three domain**. The total initial created matters under three domain shall be indicated as below.

**(THREE DOMAIN)**

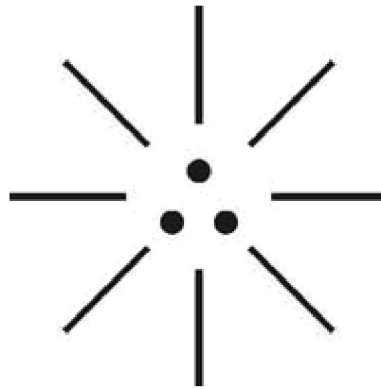

b) Philosophy of God, Supernature, Nature?...

As per current existing theory the scope of supernature, Nature and its clear distinction was not well defined. It is hypothesized that in scientific term the as stipulated below. Further both the **Supernature, Nature** shall be considered as created by God. The Etymology of English word **nature, nation, natal** might be derived from prehistoric Tamil phonetic **NADU, NATTAM**.

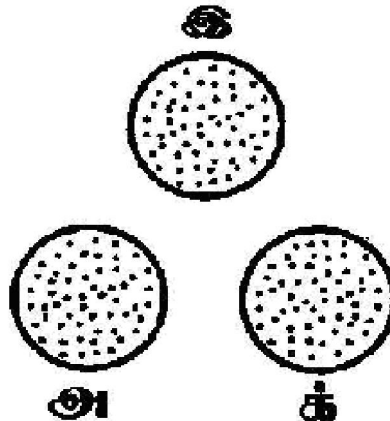

(i)

**(GOD)**

(ii)

**(SUPER NATURE)**

(ii)

**(NATURE)**

In geological, Anthropological term the supernatural, nature shall be distinguished as below.

- iii) Nature – **ETHI-E** (First Born)

c) Etymology of word “E”, “EZHEM”?...

Case study shows that the philosophy and origin of English alphabet “E” is not clearly known. In modern computer application “E” is used as **slang word** in internet, computer language. There are about **6092** slang words in current usage. The sample are cited below.

- i) “E” stands for “**Energy**” (ev)
- ii) “E” (e) stands for Mathematical Constant

d) Philosophy of e- Universe?...

It is hypothesized that **e-universe** shall be considered as **TRIPOD** like structure (existence of whole **Cosmo Universe**) with distinguished regions of **three different Radiations** as stipulated below.

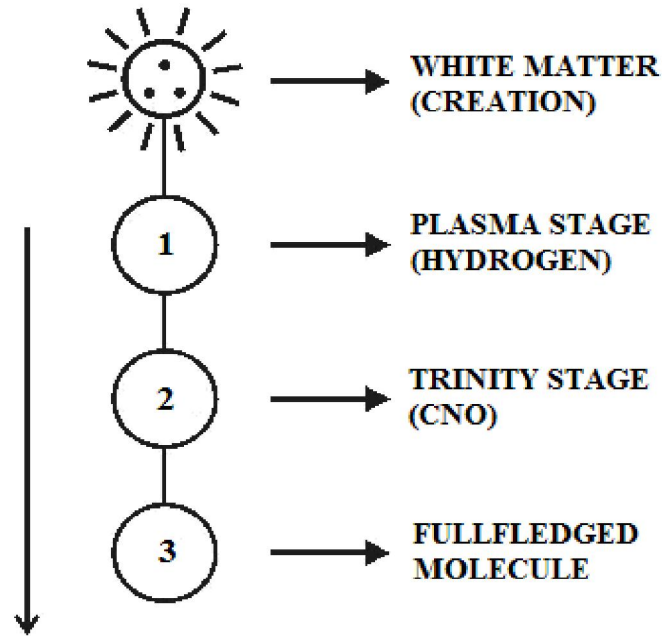

(e - UNIVERSE)

The “white hole” shall be considered as the **region** and **origin** point of “J-Radiation”. **Dark hole** shall be considered as the **end** and **ultimate** out let point of **Cosmo Universe**.

Further the **White hole** point shall be considered as the **Breathing Point** of Universe and the **Dark hole** point shall be considered as the **exhaust region** of Universe. The intermediate barrier between regions shall be considered as **equilibrium barrier radiation** through which the internal energy transformation shall be considered taking place.

e) Philosophy of plasma origin?...

In the Region III of universe White continent region (E-LANKA) shall be considered as **White Matter** Region and house of initial creation including all planets. In the expanding Universe during **SPACE and TIME “Diversity Transformation”** shall be considered originated from **White matter region** to **Plasma Region**. The plasma region shall be considered as the **highly genetically devolved** and origin point of all newly **evolved matters** of Universe as stipulated below.

(Three Stages of Evolution of Matter)

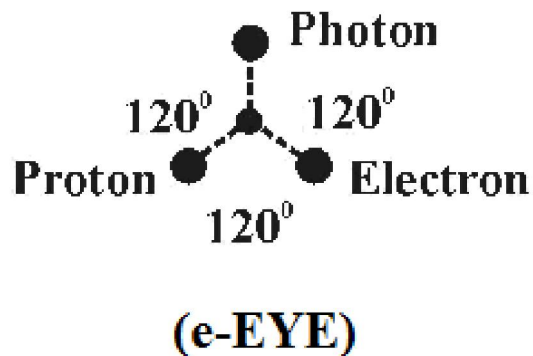

Some examples of evolved matter from plasma origin shall be narrated as below.

1. Plasma Radiation
2. Plasma Hydrogen

f) Philosophy of e-eye?

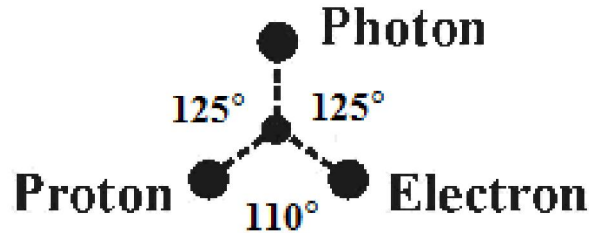

It is hypothesized that the **White whole** point of Region III Universe shall be considered as the “**e-EYE**” of universe. It is hypothesized that “**e-EYE**” point of Universe shall be considered as the highly defined, functional and logic point of Universe which controls the “**RADIATION LEVEL**” of Matter in the expanding universe with wider angle for keeping **Equilibrium** of Universe matters.

It is further hypothesized that in the expanding universe three types of **Radiation level** have been considered evolved from **J-RADIATION** in three Nuclear age, geological periods as stipulated below.

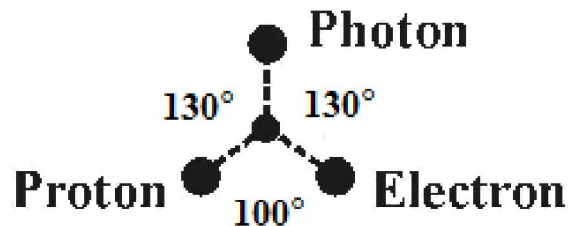

The e-Eye shall also be called as **cosmic Eye**. In three nuclear age, the genetic variation in structure of “**AKKI-E**” particles shall be considered evolved in the Universe which led to birth of three different radiation families as detailed below. In other words the fundamental **E-EYE** shall become **three species Eye** having different genetic structure in three geological period.

(i)

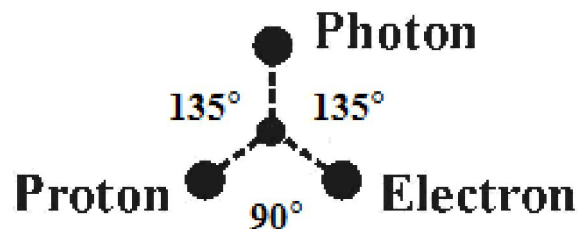

(Gamma-Family)

(ii)

(Beta-Family)

(iii)

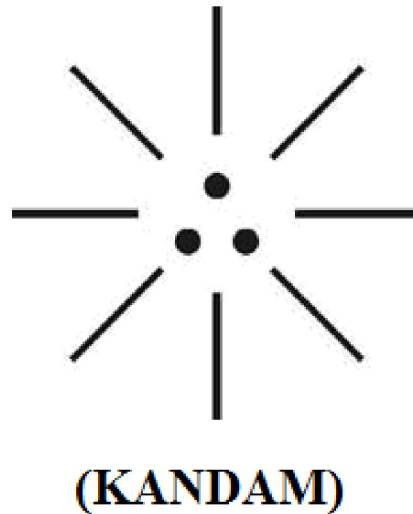

(Alpha-Family)

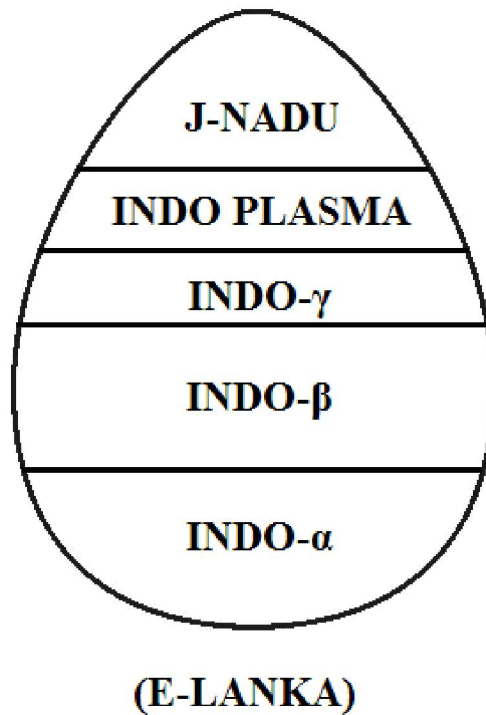

g) Philosophy of three Land Diversity?...

Three genetically varied **Land Diversity** considered Evolved in three geological periods is indicated as below. The three land diversity evolved from “**E-LANKA**” shall be called as **KANDAM**. **KANDAM** shall mean three genetically varied land origin formed from e-LANKA. It is

hypothesized that at this stage in the early universe the land, mass of KANDAM might have got transferred to the **EARTH PLANET** and three major land division might have been formed in the earth planet.

It is focused that **“INDO”** shall be considered as the **Plasma** origin of Lands before evolution of three major genetic diversity of **“geological lands”** due to impact of various **“Radiation level”** of Universe. The INDO (E-INDO) Plasma shall be called as **“ISLANDS”**. J-NADU shall be considered as the mother of all nations derived from e-LANKA continent.

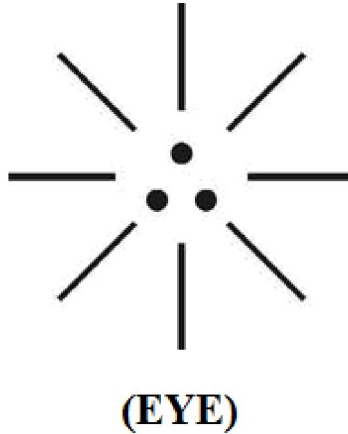

h) Philosophy of Particle, Wave property?...

It is hypothesized that all the **White Matter Origin** shall be considered as having only **Particle** property and capable of steady **Flying** without swinging. It is speculated that the different **wave property of matters** having swinging of wings shall be considered derived in three geological periods for balancing of radiation level with different level of angular displacement of wings according to varied intensity of radiation level.

i) Etymology of Word “EYE”?...

It is hypothesized that the Philosophy of English word EYE might have been derived from the Philosophy of **AKKI-E** particles i.e. the prehistoric Tamil word AKKI-E might be dialectically pronounced as **EYE**.

It is further focused that the Philosophy of EYE might have been derived from the Philosophy of **E-LANKA (E-EYE)**. It is focused that the E-EYE of E-LANKA shall be considered as the functional part of E-UNIVERSE. In prehistoric Tamil the spot in the E-EYE might have been called as KAN, KANDAM. KAN shall mean EYE. Further the structure of “**eye**” shall be considered as derived from structure of E-LANKA as narrated below.

1. J-NADU – Pupil
2. INDO γ – First layer of Eye
3. INDO β – Second layer of Eye
4. INDO α – Third layer of Eye

Further It is speculated that the three different radiation level of Universe shall be considered have evolved different species of **eye iris** as detailed below.

1. God – **BLACK IRIS**
2. First Human Origin – **WHITE IRIS** (Covered with cataract like membrane)
3. INDO γ – **DARK BLUE IRIS**
4. INDO β – **DARK GREEN IRIS**
5. INDO α – **DARK RED IRIS**

It is focused that thousands of iris colour combinations shall be considered as the combination of three fundamental colour dark blue, dark green, dark red. It is further focused that the first human on origin shall be considered as **cataract eye (white iris)** and probably could not visualize the object and it shall be considered as closed eye status.

j) Philosophy of Human eye blink?...

It is hypothesized that the white matter origin human (Lived in MARS) might not have the characteristic of “**eye blinking**” due to highly balanced level of Radiation environment. The eye blinking shall be considered as the “**act of balancing radiation level**” for keeping the system under equilibrium status. More blinking shall mean **more energetic**.

The eye blinking characteristics of human might have occurred in 2nd, 3rd generation of **“Human Races”** due to genetic variation in “Radiation level”. It is hypothesized that the first Generation human might not have blink and kept eyes in closed condition due to highly balanced environment. Further It is speculated that the eye shall be considered gradually opened in three stages as detailed below.

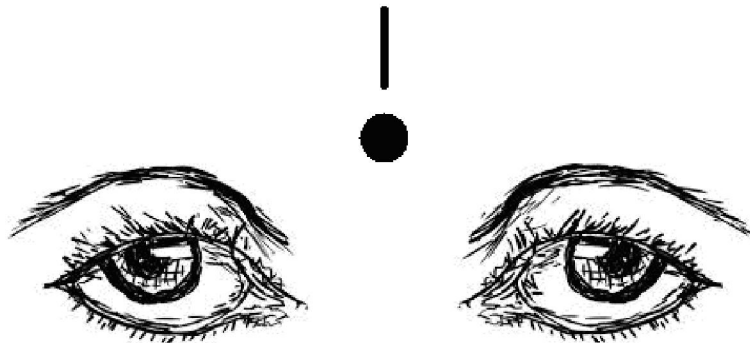

1. **First stage** – Eyes Fully Closed Condition
2. **Second Stage** – 1/3rd Eye Opened Condition
3. **Third Stage** – 2/3rd Eye Opened Condition
4. **Fourth Stage** – Eye Fully Opened Condition

“The different stages of Eye lid opening shall be considered as progress in awareness of human intelligence. A person with closed eye condition shall be considered as Infant status and a person with eye lid fully opened conditions shall be considered as super scientist.”

- Author

k) Philosophy of Human dark eye iris?...

It is hypothesized that the white matter origin human (Lived in MARS) might have had only **“DARK IRIS”** due to highly balanced environment. Further the **DARK IRIS** human shall not have ability to distinguish other colours such as **BLUE, GREEN, RED**. In other words the White matter human shall be considered as **“COLOUR BLINDNESS”** Populations and could not distinguish whether BLUE or GREEN or RED.

(1st Generation Dark Blue Iris)

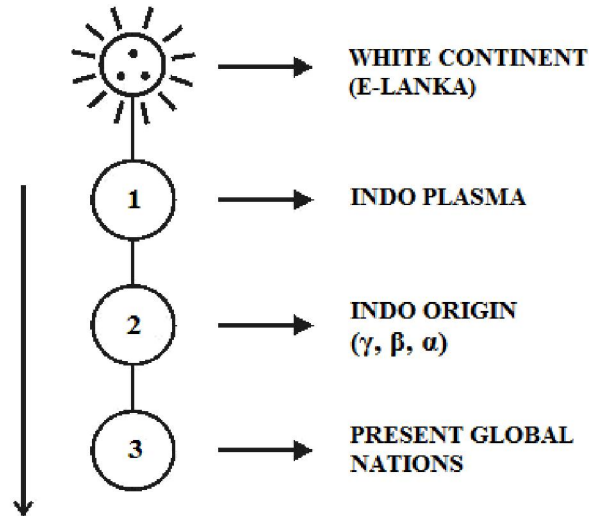

The different colour iris such as **BLUE, GREEN, RED** and its combination might be derived subsequently in 2nd, 3rd **Generation human races** due to variation in Radiation level environment in the expanding Universe.

The **island** shall be considered as the **Plasma land** in existence before origin of other nations developed under various environmental conditions in phased manner.

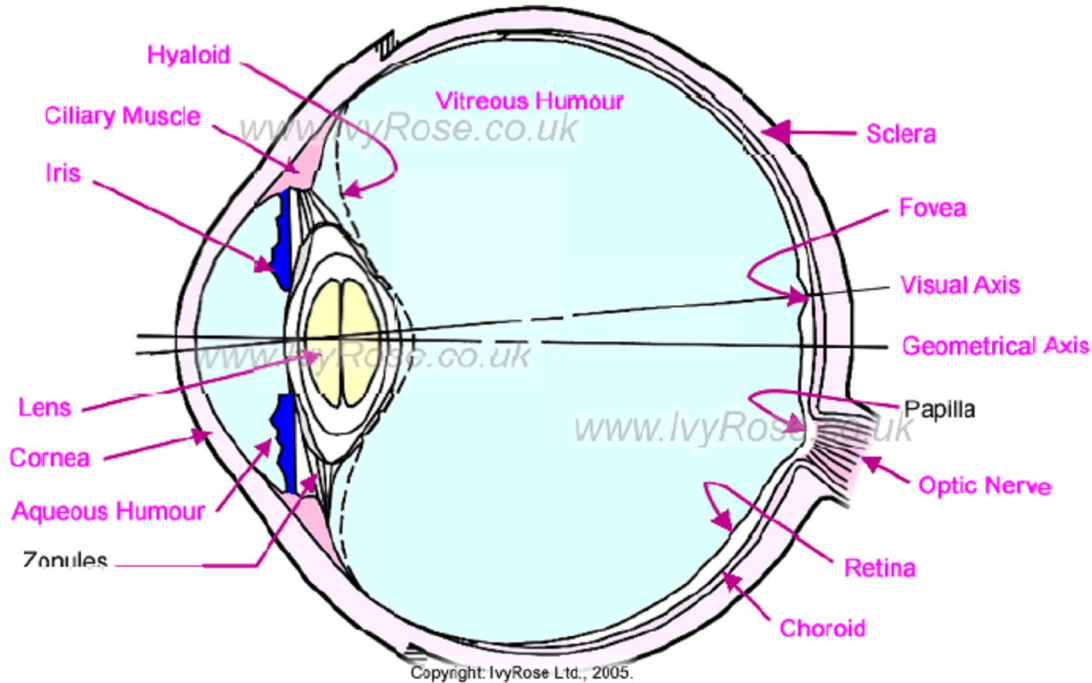

c) Philosophy of “COSMIC EYE”?...

It is hypothesized that the philosophy of **“eye”** might be derived from the philosophy of **“White Hole”** origin of matter universe. The white hole shall be considered as the **“COSMIC EYE”** and the functional part of Universe for regulations of **“Radiation Level”** under various environment by displacement of rotating the ray to keep equilibrium in three different **“Sub Regions”** of Universe. It is focused that by rotation of Ray the **“angle of incidence”** gets varied and thereby the radiation level can be systematically varied and balanced.

(e - EYE)

Case study shows that **“human eye”** is made up of **“THREE COATS”** enclosing three transparent structures. This out most layer known as **Fibrous turnic** composed of cornea, sclera. The middle layer is vascular turnic or uvea composed of choroid, cilliary body and **iris**. The inner most layer is **retina** which get circulation from the vessels of choroids as well as retinal vessels. The pupil of human eye is **Aperature**. The iris is the diaphragm that serves as the aperature stop.

Above: Schematic diagram of the Structure of the Human Eye.

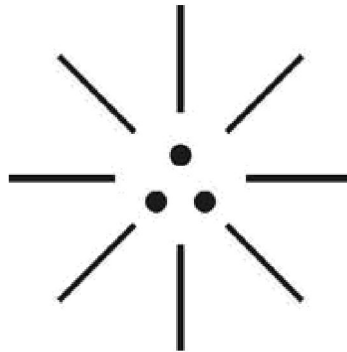

It is focused that the eyeblinking in human shall be considered as the activity related to functional part of human providing **“Varied budget of radiation”** to the brain for sending and receiving **data signals**.

“GOD SLEEPS?... NO...NO...NO... God never sleeps. God wants his children to sleep peacefully. GOD never blinks... Only 2nd 3rd generation human highly blinks”.

d) Philosophy of Mathematical constants (π , e , i) Variation?...

It is focused that the Mathematical constants of Universe behavior considered variant during space and time and this may be due to varied level of **Radiation** in the Universe in three Nuclear age. Currently so many theories exist for transcendental variation of π , e , i constants. It is hypothesized that the fundamental three constants shall be considered having interdependent property and gets varied consistently due to variation in relative position of **SUN, EARTH, MOON**.

(SUN, EARTH, MOON)

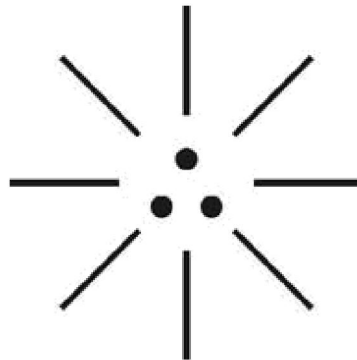

- i) Right dot (Proton) – Functional (Moon)
- ii) Left dot (Electron) - Structural (Earth)
- iii) Centre dot (Photon) – Sequence (Sun)

In the early Universe the value of e , π shall be considered as rational numbers say 3.0 due to highly balanced radiation environment. In the expanding Universe the rational number **3.0** become consistently varying logarithmically due to inverse characteristics of e , π .

e) Philosophy of E-EGG?...

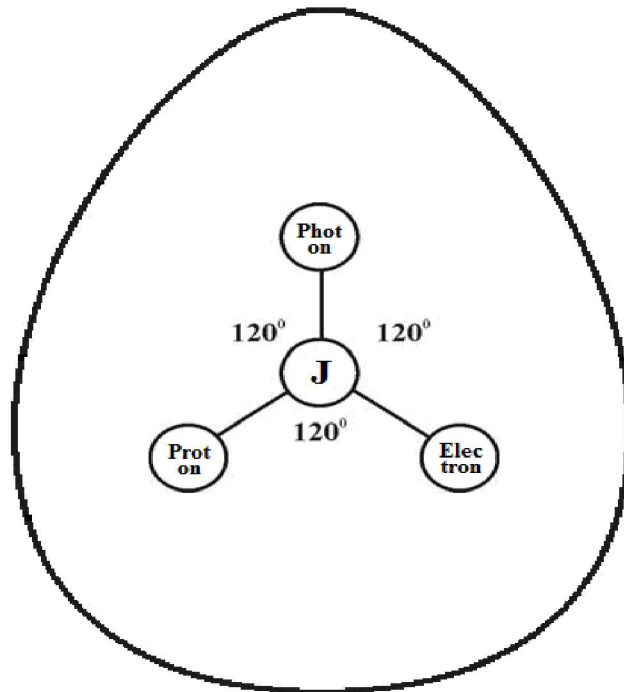

It is focused that “**egg**” normally refers to a female reproductive cell in animals and plants called as ovum, gamets, germ cell. It is hypothesized that the philosophy of egg might have been derived from the philosophy of **E-EYE**. The E-EYE shall also be called as **E-EGG**. The E-Egg shall be considered as “Master Mobile Switching Centre (**MSC**) configured under “**Three domain**” with distinguished “**SIM**”.

(i)

(E-EYE)

At that time what is now India south west coast was attached to Madagascar and southern Africa and what is now it east coast was attached to Australia. During the **Jurassic period** about 160MA (ICS 2004) rifting cost PANGAEA to break apart into two super continent namely **GONDWANA** to the south and **LAURASIA** (to the north). It is hypothesized that the so called PANGAEA, GONDWANA, LAURASIA probably might have been derived from the fundamental **E-LANKA** continent and considered as **INDO** species as detailed below.

It is further focused that the so called **SR LANKA** shall be considered as the plasma island derived from the E-LANKA continent in the early Universe. The Srilanka shall be considered as a **INFANT** of **J-NADU** having derived geological genes from J-NADU. The fundamental genetic characteristics of **salts, rocks, sands, soils** of all global nations shall be considered derived from the **salts, rocks** of “**E-LANKA**”, “**P-LANKA**”.

It is focused that Dravidian languages are a “**language family**” spoken mainly in southern India and parts of eastern and central India, north eastern Srilanka, Pakistan, Nepal, Bangladesh and other countries such as Malasia and Singapore. **Sri.Devaneyapavanar, Caldwell** contributed to Dravidian languages research. Caldwell coined the term Dravidian from Sanskrit origin “**Dravida**”.

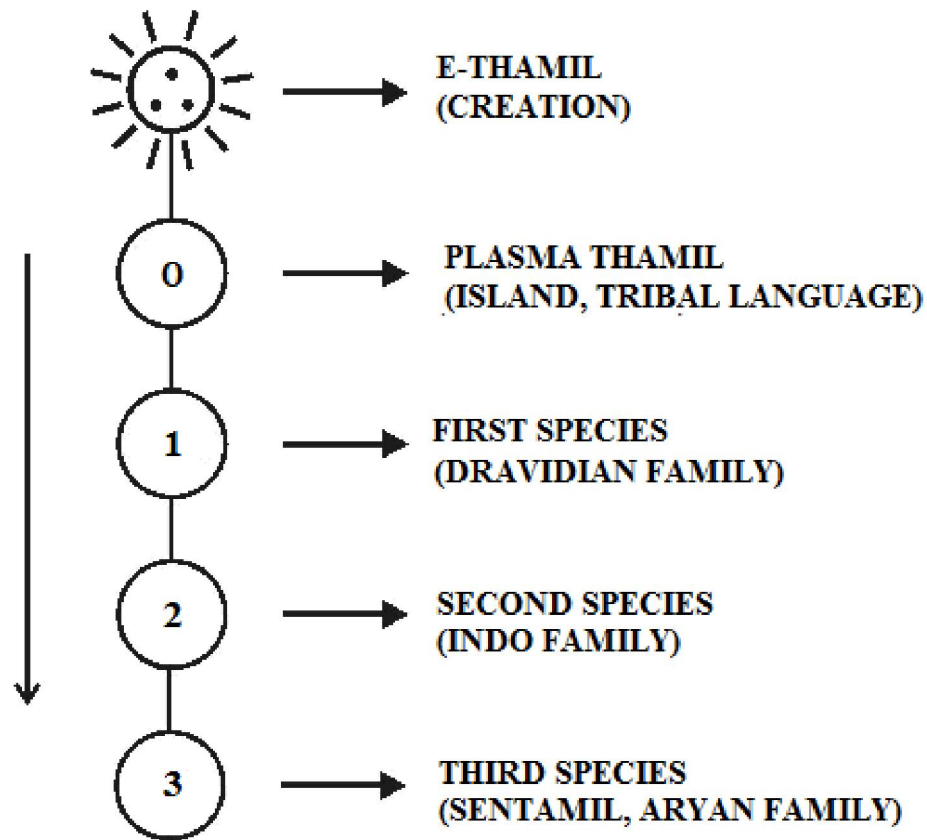

It is hypothesized that the origin of languages in **E-Lanka** in the early Universe shall be called as natural language in **code form** with super logic creation techniques due to impact of fundamental particles.
