**Abstract:** I have conducted many studies on the origin, nature, structure and evolution of the universe during the 1970-77 and proposed a new Hypothetical model of cosmology with hundreds or postulations. Based on the findings, a new hypothetical model of cosmology was formulated in 1977. On the basis of the postulations of the Hypothesis, a book was published in the name of IRLPATISM-IRLAPTATI THEORY OF UNIVERSE by the supporters. All matters pertaining to universe such as Origin, Structure, Nature and Evolution were widely discussed in the Hypothesis.

The postulations about the universe, existence of god, theory of evolution etc in the book were exposed to the anger of fanatic people and I got into a violent altercation about these revolutionary postulations of the hypothesis. As a result I was subjected to the anger, suppression and persecutions. My theory was instantly criticized by the superstitious people. My lab was destroyed and copies of the books were burned. I was forced by the fanatics to withdraw the thesis.

I reported these persecutions and torments to the Revenue Divisional Officer. Amalapuram on 6-7-1977. The Revenue Divisional Officer was conducted an enquiry about this matter on forenoon, July 21<sup>st</sup>, 1977.

While returning from the enquiry, I was attacked by a mob and they had taken me forcibly to the village chavadi, Ryali there superstitious people were met and where he was beat up. Followed by an altercation about the ideas of the hypothesis, they beaten and forced me to put sign on some prepared documents, and an offence falsely framed and foisted against me. After intense tortures I was sent to the Taluk Magistrate, kothapeta and persuaded to renounce my views. But the superstitious succeeded me in imprisoning. The Taluk Magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish me and handed over to the police station, Ravulapalem.

I was arrested by the police on July 21, 1977. A case was registered and I was imprisoned. I was kept remand for some months in sub-jail and remaining period interrogated periodically by fanatics and officers.

The trials were done from April 2, 1979 to November 20, 1979 After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27, 1979.

**Key Words:** Geo-Universe, Atomic-Universe, Photon-Universe, Ascending order of creation, Descending order of creation.

### **1. Introduction:**

The cosmos is made up of universes in infinite number, having similar structure and properties, embedded one in each other and extended in ascending and descending order. To explain and justify this model, there are three universes so far known to us (a) Geo-Universe (b) Atomic-Universe (c) Photon-Universe. These three are having similar structure and properties, embedded one in each other and extended in ascending and descending order. Of these three, we known some extent about the internal structure and properties of the Geo-Universe but we do not known its external structure. We know some extent about the external structure and properties of the Photon-Universe but we do not know its internal structure. Between of these three universes, we came

to know a large extent about the internal & external structure and properties of the Atomic-Universe. Hence, I have taken the similarities of external structure & properties between the Geo-Universe & Atomic-Universe to propose that all the universes in ascending and descending order of the creation are having similar internal structure and properties. The similarities of external structure & properties between the Atomic Universe and Photon-Universe are taken to propose that all the universe in ascending and descending order of creation are having similar external structure and properties. And the manner in which of these three universes i.e., embedded one in each other, extended in ascending and descending order to propose that all the universes in ascending and descending order of the creation are embedded one in

each other and extended in ascending and descending order.

## **2. Similar External Structure & Properties**

According to the model, all the universes in ascending and descending order of the creation are

### **Atomic-Universe**

1) The atom appearing in several forms such as Hydrogen to uranium etc., being due to the Internal structure having different atomic particles at various numbers.

2) The atom exhibiting several physical and chemical Properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number.

## **3. Similar Internal Structure & Properties**

According to the model, all the universes in ascending and descending order of the creation are having similar internal structure and properties. To explain and justify this, I have taken the many similarities between the atomic-universe and Geo-Universe.

### **Atomic-Universe**

1) Various atomic particles at different sizes in several numbers are present in the atom.

2) These atomic particles types of having three charges at negative, positive and neutral states are present in the atom.

3) Positively charged protons are present in the nucleus.

4) Neutrons at neutral state are present in the Nucleus.

5) Negatively charged electrons are present at large distance of the atomic nucleus in the atom

6) Additional neutrons called isotopes are present around

7) Radiation emitting from the atom.

8) There is a property of nuclear fission is in the atom. the

## **4. Descending Order Of Creation:**

The Geo-Universe that means the Universe seen around our earth is a universe having magnificent structure and properties such as galaxies, stars and planets etc. Some planets such as earth having suitable conditions similar to the Earth having continents, countries, oceans, trees, animals. Cyclones, human beings etc. Such Geo-Universe being built by Universes of its descending order of creation that means photons, particles, atoms.

having similar external structure and properties. To justify this, I have taken many similarities between the atom and photon.

For example:-

### **Photon-Universe**

1) The particle "Photon" related to energy appearing in several forms such as radio waves, gamma rays, violet rays

etc being may be probably due to the internal structure having different particles at various numbers.

2) The particle "photon" related to energy exhibiting properties such as wave length colour, temperature etc being may be Probably due to the internal structure having different particles at various number.

### **Geo-Universe**

1) Various astronomical objects at different sizes in several numbers are present in the Geo- Universe

2) These astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-Universe

3) Stars built by atoms having positive charged nucleus are present in centre of the Geo-Universe

4) Planets at neutral state are present in Centre of the Geo-Universe.

5) Here is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-Universe.

6) Additional planets called satellites the planets are present.

7) Cosmic rays emitting from the Geo- Universe.

8) There is a property of super Nova is in Geo-Universe.

Atomic-Universe that means the atom present in several forms from hydrogen to uranium etc is another universe having magnificent structure and properties such as electrons, protons, neutrons, etc and continents, countries, oceans, cyclones, trees, animals, human beings may be present on some neutrons having suitable conditions exactly similar to the earth planet resembling to the Geo-Universe. Such Atomic-Universe being built by universes of its descending order of creation that means energy particle "photons".

The Photon-Universe that means the particle “photon” related to energy present in several forms of electromagnetic radiation is also another universe having magnificent structure and properties similar galaxies, stars, planets, electrons, protons and neutrons etc. resembling to the Geo-Universe and Atom. Continents, countries, oceans, seas, cyclones, trees, animals etc on some particles having suitable conditions exactly similar to the Earth. Such Energy-Universe may also being built by Universes of its descending order of creation that is not yet known to us.

Thus the descending order of creation continuous infinitely.

#### **5. Ascending Order Of Creation:**

The Photon-universe that means the particle related to energy “photon” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means atom. All components in the atom such as electrons, protons and neutrons etc. are built by these “photons” in infinite number. Such each and every energy particle “photon” is basis to an infinite descending order of creation.

The Atomic—Universe that means the “Atom” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means in our Geo-Universe. All components in the Geo-Universe such as stars, stars and planets etc., are built by these atoms in infinite number. Such each and every atom is basis to an infinite descending order of creation.

The Geo-Universe that means the “Universe” seen around our earth having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that is not yet known to us. All similar galaxies, stars, planets etc components in that Universe are built by these Geo-Universes in infinite number. Continents, countries, oceans, seas, cyclones, trees, animals etc on some components having suitable conditions exactly similar to the Earth. Such each and every Geo-Universe in that ascending creation is basis to an infinite descending order of creation.

Thus the ascending order of creation continuous infinitely.

#### **6. Cosmic-Environments:**

The fill of structure and characteristics in the universe of the cosmos proposed as cosmic environments. For example the fill of structure and characteristics like galaxies, stars, planets etc in the Geo-Universe proposed as Geo-Environment, the fill of structure and characteristics like proton, neutrons and electrons etc in the Atomic-Universe proposed as Atomic-Environment and the fill of structure and characteristics in the Energy-Universe that means in

the photon that is not yet known proposed as Energy-Environment.

#### **7. Space Weather:**

The fill of structure and characteristics like galaxies, Stars, Planets and their orbits and other physical forces etc that surrounds in the universe proposed as space atmosphere, the state of galaxies, stars, planets, nebulae. Pulsars etc at a particular region over a long period of time proposed as space-climate, the state of characteristics of space-climate like solar wind flares, asteroids etc at a particular region during a short period of time proposed as space-weather.

#### **8. Space Regions:**

The state of space atmosphere being in still proposed as “Inactive Space Region”, the state of space atmosphere being in active proposed as “Active Space Region” The region of space atmosphere in which the celestial bodies are more widespread areas proposed as “Space High Pressure Area” the less widespread areas proposed as “Space Low Pressure Area”.

#### **9. Space Low Pressure Systems:**

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure. The centre of space low pressure area itself is the black-hole and the circular whirling celestial bodies & other space dust etc caused by the space low pressure area proposed as Galaxy.

#### **10. Space Disasters**

Geomagnetic storms caused disturbed the earth’s weather and magnetosphere caused by the solar winds. Several space weather phenomena just like solar energy particle events, geomagnetically induced currents, ionospheric disturbances that cause radio and radar scintillations, disruption of navigation by magnetic compass and electrical systems, communications, satellite hardware damage, mains electricity grid, geological explorations, pipe lines and common radiation like heat waves, extreme temperatures, airburst etc to human due to intense solar flares release very high particles that can cause radiation poisoning to human.

#### **Studies Carried Out:**

Many studies were carried out on this Hypothesis and it was successfully proved out in the studies.

Geo- Universe has its own structure and properties, exactly similar to the structure and properties resembling Atom and Energy particle. There are stars, planets, galaxies and life on the earth etc. present in the Geo- Universe.

Geo-UNIVERSE has its own structure and properties, exactly similar to the structure and properties resembling Atom and Energy particle. There are stars, planets, galaxies and life on the earth etc. present in the Geo-UNIVERSE.

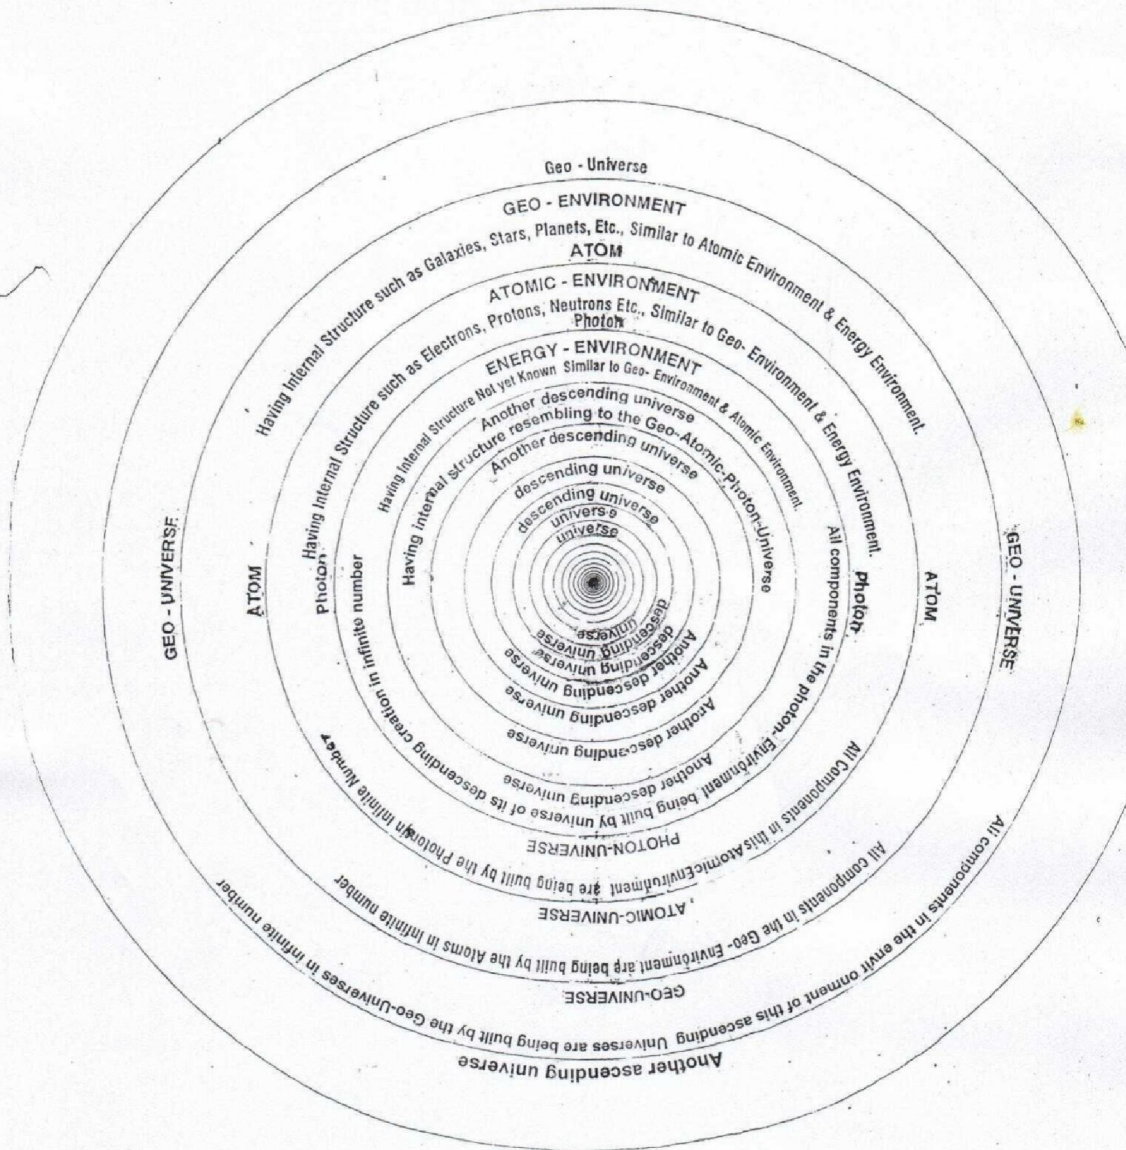

Energy particle has internal structure and having three kinds of basic elements proposed and named as Positive energies (PEONS), Negative energies (NEONS) and Neutral energies (NEUCONS); it is also another universe named as Energy-UNIVERSE having structure and properties exactly similar to the structure and properties resembling our Geo-UNIVERSE and Atomic-UNIVERSE.

Atom is gigantic UNIVERSE having structure and properties exactly similar to the structure and properties resembling our Geo-UNIVERSE and Energy particle. Just as there are stars, planets, galaxies and life on the earth etc. present in the Geo-UNIVERSE, in the same way stars, planets, galaxies and life on neutrons etc. may be present in the form of electrons, protons and neutrons in the atom.

# COSMOS

The universe seen around our earth is being as a small atom in it is outer, universe of it is ascending order of creation. All components in that universe being built by universes of its descending order of creation, that means our Geo-0universe is a gigantic universe and has magnificent structure and properties. The Geo-universe having our earth is as mall atom in the outer universe. There are many different type of cosmic bodies in its internal structure similar to galaxies, stars, planets of Geo-universe, atmosphere, clouds, earthquakes etc., many be present on some objects resembling to the Geo-universe. There are intelligent people may also be living on some cosmic objects similar to the earth. Those people may have most modern civilization and use the aero-planes, computers, ships, trains, buses etc., similar to our world countries.

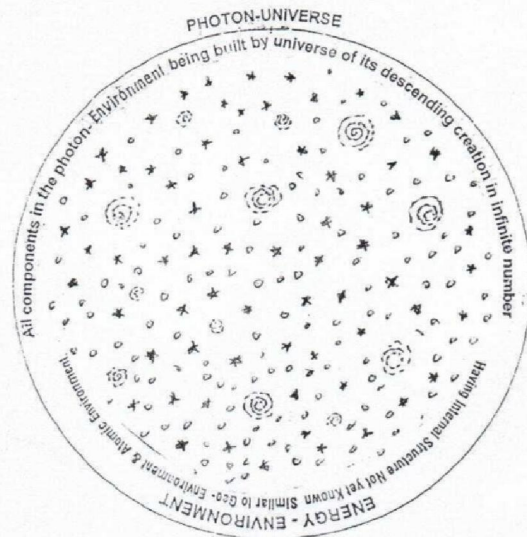

The world seen around the earth is a gigantic universe. It has magnificent structure and prosperities. There are many different type of cosmic bodies such as galaxies, stars, planets etc in its internal structure. Similar continents, oceans, mountains, cyclones, atmosphere, clouds, earthquakes, valleys etc resembling to earth may be present on some planets. Forests, animals, human beings, virus, bacteria, living being etc., may be present on some other planets resembling to the earth. And there are intelligent people may also be living on some planets having similar conditions exactly similar to the earth. Those people may have most modern civilization and use the Aero-planes, computers, ships, trains, buses, cards etc, similar to our world countries.

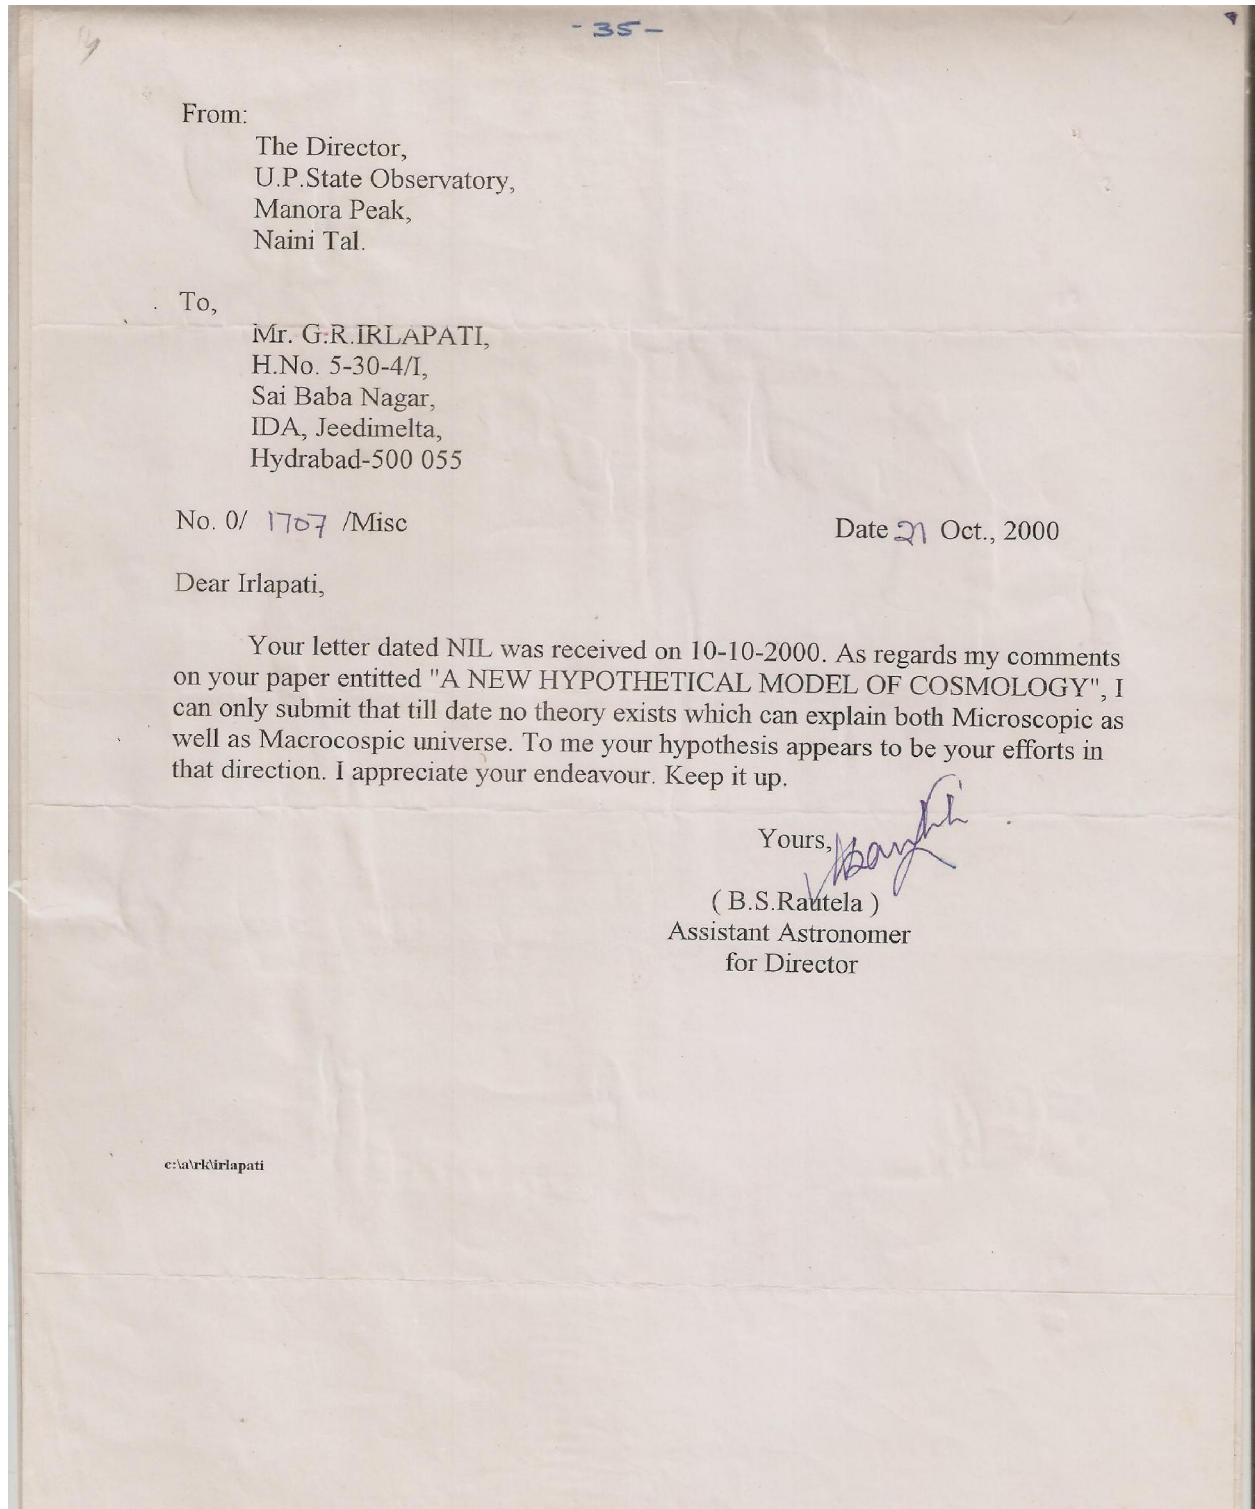

The Atom present in several forms from Hydrogen uranium and above is gigantic universe. It has magnificent structure and properties. There are many different type of atomic particles such as electrons, protons, neutrons etc., in its internal structure. Continent oceans, mountains, valleys, earth quakes, atmosphere etc structure may be present on some neutrons resembling to the Geo-universe.
