

# *Nature and Science*

ISSN: 1545-0740

Volume 5 - Number 1 (Cumulated No. 13), March 30, 2007

## Contents

1. Pedality And Soil Moisture Retention Characteristics In Relation To Erodibility Of Selected Soils  
E. U. Onweremadu, F. O. R. Akamigbo, C. A. Igwe 1-7
  2. Prevalence and shedding of *Renibacterium salmoninarum* in Brook trout (*Salvelinus fontinalis*) in Michigan  
A. E. Eissa, E. E. Elsayed<sup>2</sup> and M. Faisal 8-17
  3. Multi-variable Grey Model based on Genetic Algorithm and its Application in Urban Water Consumption  
Han Yan, Xu Shiguo 18-26
  4. Sorptivity Characteristics Of Soil Phosphorus In Relation To Land Utilization Types  
E. U. Onweremadu, M. C. Ofoh 27-38
  5. Adoption Levels And Sources of Soil Management Practices in Low – Input Agriculture  
E.U. Onweremadu, E. C. Matthews-Njoku 39-45
  6. Intercropping - A Food Production Strategy for the Resource Poor farmers  
Ibeawuchi, I . I 46-59
  7. The Effects of 60Hz Magnetic Fields on Plant Growth  
Hsin-Hsiung Huang<sup>1\*</sup> and Show-Ran Wang 60-68
  8. Genetic Variability for Biological Nitrogen Fixation Traits in Tropical Soybeans (*Glycine max* (L) Merr)  
D. K. Ojo, J. O. Amira, and O. A. Oduwaye 69-74
  9. The Comparison of the Loading Devices on Microstrip Circuit in Patch Antenna  
Cherng Shen 75-80
  10. Eternal Life and Stem Cell  
Ma Hongbao, Cherng Shen 81-96
- Letter to Editor
1. Chromatographic Application of Fullerene Compounds on Poly(4-methyl-5-vinlthiazole) Stationary Phase
  2. The Chromatograph of Nitro Compounds on Poly(4-methyl-5-vinlthiazole) Stationary Phase  
Sheau-Long Lee 97-103

Marsland Press, P.O. Box 21126, Lansing, Michigan 48909, The United States, (517) 349-2362
