

# Free Flow & Flow in Channels

Fluid flow is engaged with the laws of flow and the kinds of flow. The artwork of the Polish artist Yerka demonstrates free flow of the rain and afterwards its flow in channels

Jacek Yerka

# Mixing Processes

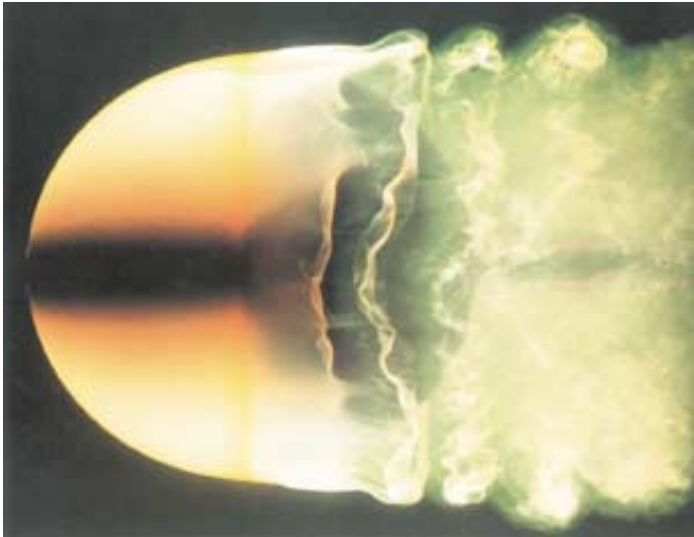

Mixing processes are used for the preparation of a homogeneous mixture of two or more materials

Diego Rivera

# Flow of a Viscous Liquid

This is an artwork of a Russian Scientist-Artist, Professor of Mathematics, showing a viscous liquid dripping in a huge space where people are randomly running.

The characteristic of the viscous flow is demonstrated by the continuous deformation of the fluid without its tearing

Anatoli Fomenko
